Join the *Crew*

Trusted by over 150,000 companies to protect their teams—one step at a time.

Since 1984, **Shoes For Crews®** has led the industry in slip-resistant footwear. We pioneered the original slip-resistant outsole and have been innovating ever since—designing shoes that help reduce workplace accidents and protect professionals across food service, healthcare, hospitality, manufacturing, logistics, and more.

Each year, slips, trips, and falls are estimated to cost European businesses nearly **€71 billion** in claims, lost productivity, and operational downtime. At Shoes For Crews Europe, we help mitigate that risk with proven safety outcomes—our shoes reduce slip-related injuries **by up to 67%** and outperform competitors with **44% higher traction scores**.

A family of brands for every job

We offer over **110 styles** across proprietary and partner brands—all backed by our industry-leading outsole technology.

SFC Brands

- **Shoes For Crews®** – The original slip-resistant work shoe
- **SFC PRO®** – Heavy-duty industrial durability
- **MOZO®** – Where kitchen performance meets personal style
- **LILA™** – Advanced slip resistance for women in the workplace

Partner Brand featuring our exclusive slip-resistant outsoles:

- **PUMA® SAFETY**

Why companies choose us

- **40+ years of Slip Resistance Expertise** – Proven solutions trusted by leading industries
- **Fast, Reliable Delivery** – Supported by strategic logistics centres in the Netherlands and the UK
- **Certified Excellence** – Outsoles engineered to exceed requirements such as EN ISO 20344:2021 slip resistance standards
- **Tested for Safety** – Many of our styles are certified under EN ISO 20347:2022 or EN ISO 20345:2022
- **Sustainability in Practice** – Proud holder of the EcoVadis Bronze Medal for our responsible practices

Safety Categories

Occupational shoes offer protection but lack the reinforced toe cap. Safety shoes must feature a toe cap tested to 200 joules.

OCCUPATIONAL SHOES (Categories as of norm EN 20347)

	Closed heel area	A Antistatic	E Energy absorption of seat region	WPA No water penetration in upper material	WR Water resistance	Cleated outsole	P/PS/PL Penetration protection made of steel or composite
OB							
O1	●	●	●				
O2	●	●	●	●			
O3	●	●	●	●		●	●
O4	●	●	●	●			
O5	●	●	●	●		●	●
O6	●	●	●		●		
O7	●	●	●		●	●	●

The categories **OB**, **O1**, **O2**, **O3**, **O6** and **O7** refer to shoes made of leather or textiles and other materials.

The **O4** and **O5** categories are shoes that have been wholly moulded, including solid rubber shoes (i.e. vulcanised shoes as a whole).

SAFETY SHOES (Categories as of norm EN 20345)

	Toe cap	Mandatory level of slip resistance	Closed heel area	A Antistatic	E Energy absorption of seat region	P Perforation resistance (metal insert)	PS Perforation resistance (non metal insert, 3.0 mm nail)	PL Perforation resistance (non metal insert, 4.5 mm nail)	WPA No water penetration in upper material	Cleated outsole	WR Water resistance

- LG:** Ladder grip
- M:** Metatarsal protection
- SC:** Scuff cap abrasion
- SR:** Slip resistance (ceramic tile floor with glycerine)

Technologies Icons

OUTSOLES

- SFC OUTSOLE**
Safety with every step.
- 4SG™ FOUR SEASONS GRIP OUTSOLE**
All-weather grip on wet, icy, and oily surfaces.
- ICE PRO™ OUTSOLE**
Advanced traction on ice.

SAFETY FEATURES

- CE CERTIFIED**
Complies with European safety standards.
- RESISTANT TO FUEL OIL**
Outsole withstands oils and fuels.
- WATER RESISTANT**
Prevents water penetration under light contact.
- WATERPROOF**
Fully prevents water penetration.
- COMPATIBLE WITH ORTHOPEDIC INSOLES**
According to PPE standards.
- RESISTANT TO BLOODBORNE PATHOGENS**
Protects against fluid penetration (ASTM F1671 compliant).
- METAL-FREE**
No metal components.
- ANTISTATIC**
Reduce static build-up and safely dissipate electric charges to the ground.
- ELECTROSTATIC DISSIPATIVE (ESD)**
Channels static back into the ground rather than the body, preventing you from shocking anyone, or anything around you.

COMFORT FEATURES

- REVIVE™ FOAM CUSHIONING**
Extremely lightweight foam that reduces foot fatigue & pressure while providing 20% more rebound for energised steps.
- EXTRA-CUSHIONING**
Enhanced comfort and shock absorption.
- LIGHTWEIGHT**
For easier movements and greater comfort.
- BREATHABLE**
Allows air flow for added comfort.
- VEGAN-FRIENDLY**
Made without animal materials.

OUTSOLE FEATURES

- TRIPGUARD™**
Light curve and tighter lug pattern for smoother surface transitions.
- SPILLGUARD™**
Protective membrane on the upper to guard against spills.
- CLOG-RESISTANT**
Wide-spaced lugs to minimize clogging.
- PUNCTURE-RESISTANT**
Midsole protecting from sharp objects.
- HEAT-RESISTANT OUTSOLE**
Up to 300°C.

Athletic

When your work keeps you moving, lifting, and leading, these trainers provide the grip, support, and comfort you need.

“Just *wow.*”

Just wow. What a brilliant pair of shoes. They work like a dream, are super comfortable, and definitely non-slip. I would 100% recommend them. Thank you so much, Shoes For Crews!

Mighty Mat!TM

Whether you're kitting out a restaurant, factory, or healthcare setting, these anti-fatigue, slip-resistant mats help reduce strain and keep you steady through long shifts.

Non-slip surface for safe footing.

Non-slip SFC underlay keeps the mat firmly and securely in place.

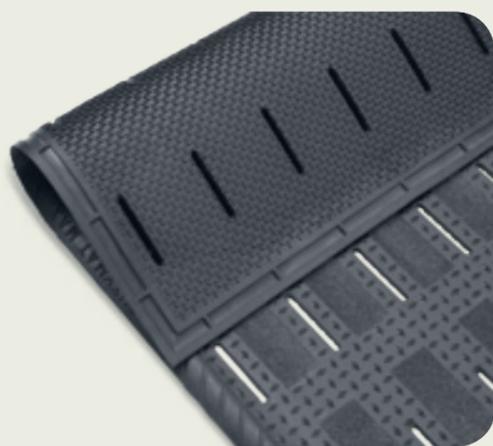

Perforations allow liquids to drain from the surface.

Thin Enough to Fit Under Most Doorways!
Low-profile for high-traffic areas

MIGHTY MAT!TM CLASSIC
STYLE # 20 | Black | 152.4 x 91.44 cm

- High traction, slip-resistant surface
- Patented slip-resistant rubber base
- All grip upper with serrated edge for added durability
- Height: 6.5 mm – fits under doorways

Cushioned and Rubberized!
The ultimate in slip resistance

MIGHTY MAT!TM MAX II
STYLE # 40 | Black | 121.92 x 91.44 cm

- High traction, slip-resistant surface
- Rubberised diamond plate pattern
- Patented slip-resistant rubber base and grid pattern
- Anti-fatigue cushion provides all day comfort

• Height: 14.8 mm

Care & Cleaning: Easy to clean in the sink, dishwasher or right on the floor! Scrub with a brush and detergent or run through a complete dishwasher cycle. To avoid rips and tears, never hang to dry by the handles or drainage slots.

Crewguard[®] for Shoes

Keep your crew covered—literally. The CREWGUARD[®] Slip-Resistant Overshoes are designed to fit perfectly over your own shoes or boots, adding an extra layer of protection and unbeatable grip. Made with rubber upper, these overshoes lock out messes while the clog-resistant, easy-clean outsole keeps debris from sticking.

- Nylon reinforcement in toe and heel

REVIVE™ Cushioning: Engineered for Endurance

20%
Lighter than EVA
midsole material

20%
More rebound
than normal EVA

30%
More cushioning
life compared to EVA

rev:ive™
cushioning foam

Lightweight, spring-like cushioning that delivers all-day support and rebound — built to reduce fatigue on long shifts. The foam absorbs impact, reduces fatigue, and outperforms standard EVA in rebound, durability, and weight — keeping your crew comfortable and protected, shift after shift.

Slip-resistant Outsole *Technologies*

Safe grip with every step — outsole technology you can rely on.

The trusted **SFC OUTSOLE** provides safety with every step. As the tests below demonstrate, its excellent slip resistance far exceeds the industry standard.

Testing the slip resistance of our **SFC OUTSOLE** [EN ISO 20344:2021]

STANDARD REQUIREMENT
Ceramic + Sodium Lauryl Sulphate

SR REQUIREMENT
Ceramic + Glycerine

● Shoes For Crews outsole
● Industry standard

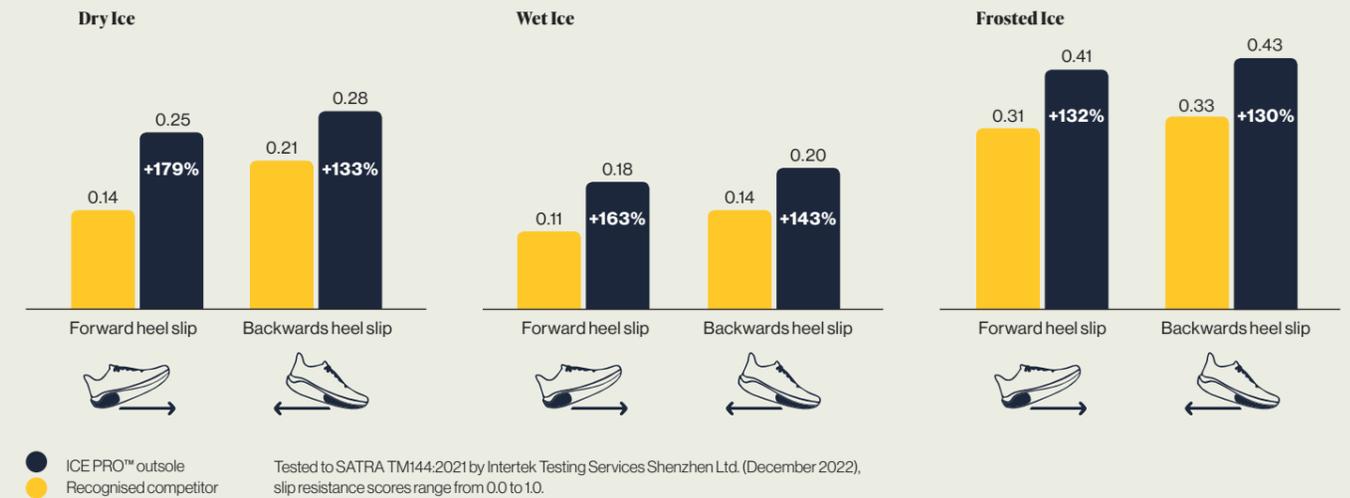

Tested to EN ISO 20344:2021 by Intertek Testing Services Shenzhen Ltd. (August 2022), slip resistance scores range from 0.0 to 1.0.

Slushy snow and wet or frozen ice are extremely unfavourable conditions for safe work. That's precisely why we've developed the **ICE PRO™ OUTSOLE**. With its unique structure and sophisticated material blend, it provides superior slip resistance on icy surfaces.

The structure and material compound of the ICE PRO™ outsole provide high levels of slip resistance, particularly on icy surfaces.

Testing the slip resistance of our **ICE PRO™ OUTSOLE** on ice [SATRA TM144:2021]

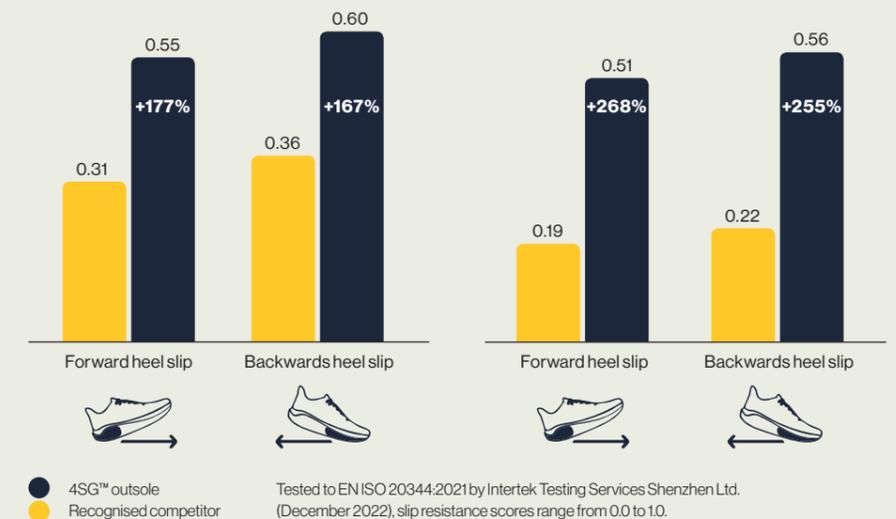

Prevent accidents on wet, icy, and oily surfaces: Our **4SG™ FOUR SEASONS GRIP OUTSOLE** is specifically designed for challenging surfaces and environments — across all seasons and weather conditions. It meets the EN ISO 20344:2021 standard and surpasses the industry standard.

Testing the slip resistance of our **4SG™ FOUR SEASONS GRIP OUTSOLE** [EN ISO 20344:2021]

STANDARD REQUIREMENT
Ceramic + Sodium Lauryl Sulphate

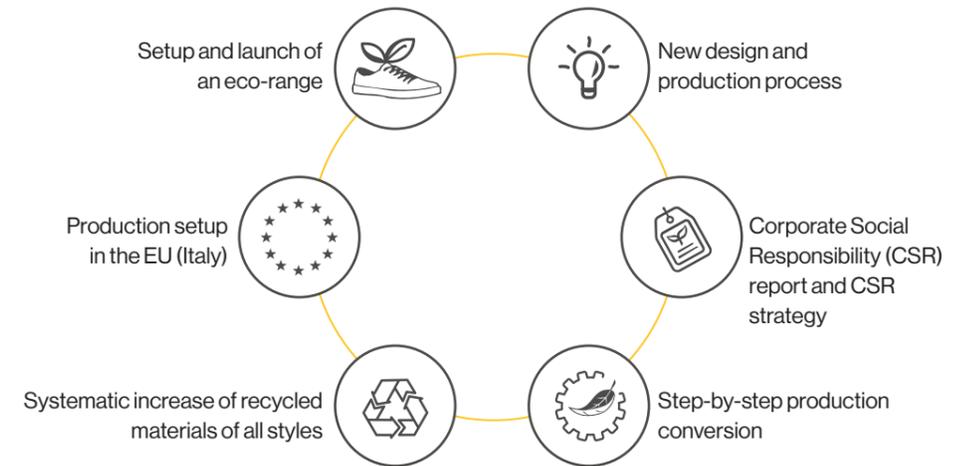

SR REQUIREMENT
Ceramic + Glycerine

Committed to Tomorrow

In 2026, we continue to reduce the ecological footprint of our shoes.

Our strategy for *sustainable products*:

The journey *of a shoe*:

Our world is changing, so we can't stand still. To be ready for the future, Shoes For Crews is developing new materials and production methods to decrease our environmental footprint, step by step. We have therefore established an ISO 14001-certified environmental management system (EMS).

Shoes For Crews has been awarded the 2025 EcoVadis Bronze Medal, recognising our commitment to sustainability in Environment, Labour and Human Rights, Ethics, and Sustainable Procurement. This award reflects our ongoing efforts to reduce our environmental footprint, operate responsibly, and improve our processes step by step.

Sustainability Report 2024

Scan the QR code to access our full 2024 Sustainability Report and learn more about the progress and priorities guiding our sustainability journey.

We support the United Nations' Sustainable Development Goals and have been a member of the UN Global Compact since March 2024.

Welcome to the *crew.*
